Superior National Forest - Big Aspen

Description

This trail system travels through a large pine and hardwood forest with areas in the process of regrowth. It uses both old logging roads and abandoned railroad grades from the old Virginia and Rainy Lake Lumber Company. Several scenic vistas make this trail especially popular. The wide treadway is excellent for skiers of all abilities and for mountain bikers, hikers, and ATV riders. (ATV use is allowed from May 1st through November 20th, depending on trail conditions. Other motor vehicles are not allowed at any time.)

Tips for ATV Riders

- Responsible riders are safe riders. Be sure to wear appropriate protective gear and maintain your machine. Don't take chances that endanger yourself or others.
- Your attitude toward your surroundings and your behavior as a rider affect the attitudes of other outdoor users, landowners and lawmakers. **Ride responsibly!**
- If you tread lightly on the environment, are courteous to others, respect private property and obey the law, you are contributing to the positive image of recreational motor vehicle activities.
